E-mail: [gokularise@gmail.com](mailto:gokularise@gmail.com) \* Telephone number: +91 8940962710

Residence/domicile: 228, Poonthottam ,Thiruvarur,609503

Tamilnadu, India \* Date of birth: 26-08-2000

Highly skilled frontend developer with excellent experience in Svelte and JavaScript, specializing in building responsive and interactive web applications. Proficient in Tailwind CSS, having completed over 30 design projects. Currently learning React Native for mobile app development. Strong understanding of AI technologies like Langchain.js and RAG method. Adept at collaborating with teams to deliver scalable and efficient solutions.

## Work experience

---

### Lulugram (Product) Front end Developer

Sep 2023 - Current - 1.1 Years  
On-site

- Developed and designed user interfaces using Svelte for a major project at Lulugram, enhancing the overall user experience.
- Utilized Capacitor to create and maintain Android applications, ensuring seamless performance and integration.
- Identified, debugged, and resolved complex bugs to improve application stability and functionality.
- Implemented fine-tuning and optimization techniques to enhance code efficiency and maintainability.

## Projects

---

### Vidyavart

Developing an AI-driven e-learning app that allows students to join, learn, ask questions, and practice. The app leverages AI to enhance learning experiences by providing personalized content, answering queries, and supporting interactive practice sessions.

### GramLok

Contributed to the development of Gramlok, a social media app connecting people in villages across India. The platform supports 17 languages, allowing users to post news, events, and activities, as well as buy and sell goods without platform fees. It also provides a marketplace for local services, promoting community engagement and economic growth.

### Qbtrix (Product & Services) UI Developer

June 2023 - Aug 2023 - 3 Months  
Remote

- Handled special projects designated by senior developer. Participated in pre-project analysis and technical assessments to validate creation of user-friendly interface.
- Researched new programming languages, frameworks and technologies to stay abreast with latest trend.
- Make pixel perfect design as per the Figma prototype.

## Projects

---

### Noquee

Noquee is a mobile app designed to streamline and enhance the grocery shopping experience. With Noquee, users can conveniently browse and purchase groceries from the comfort of their smartphones.

**Interacly Ai**     Interacly AI is a web app that leverages AI capabilities to create interactive experiences for users. It utilizes intelligent algorithms and machine learning to enable dynamic interactions and personalized experiences.

## Personol Projects

---

Mybus	I have developed a dynamic and visually engaging bus ticket booking web applica- tion using JavaScript (JS) and GASP animation. Key features are-User friendly UI, Realtime distance calculation and Interactive Seat Selection
Portfolio	My portfolio is a comprehensive showcase of my front-end development skills and expertise.I demonstrate my ability to create visually appealing and interactive web applications.

## Education

---

Front-end-Development CertificateProgram A deep learning approach to core Web development Tools and Languages	
Full-stack-development CertificateProgram Bootcamp Design, code, and implement the process of learning to create smaller to mid-level programs or apps.	Scrimba December2022-April2023
Bachelor's Degree Program Percentage: 72	LearnInfinity October2022 - April2023

## Technical Skills

---

A.V.C College Autonomous  
June 2018 - May 2021

### Languages / Tools

- **Languages:** JavaScript, HTML, CSS
- **Frameworks:** Svelte, SvelteKit, Capacitor, React Native Basics, Tailwind
- **Tools:** Figma, Git, Github, Taiga VS Code ,Gsap
- **Backend:** Appwrite, PocketBase, node js Basics
- **Ai :** Mistral Ai , Langchain js, Hugging Face - Basics
- **Other:** Debugging, Responsive Design, Code Optimization, PWA, UI Libraries
