PROFESSIONAL SUMMARY

Full Stack Developer with nearly **2 years** of experience building fast, responsive web and mobile apps using **React**, Svelte, SvelteKit, **React Native** and Node.js. Skilled in end-to-end development, from UI to back-end APIs and deployment. Focused on performance, clean code, and solving real-world problems efficiently.

EXPERIENCE

LULUGRAM TECHNOLOGIES | SOFTWARE ENGINEER

Sep 2023 – July 2025 | Trivandrum, Kerala

- Delivered 3+ production-grade web and mobile apps (Gramlok, Crossword Mart) using **SvelteKit**, **React Native**, and Node.js — **5000+** downloads across platforms.
- Reduced Gramlok's bundle size by **30%+** via code splitting, eliminating duplicate modules and unused JavaScript.
- Fixed a critical navigation bug by replacing volatile stores with param-based logic, improving reliability on dynamic pages.
- Improved multilingual UX by resolving layout shift using a single CSS tweak, stabilizing UI across **17+** languages.
- Leveraged SSR in SvelteKit to cut initial page load times by **40%**, optimizing for low-end Android devices.
- Replaced per-app customer support development with a unified plug-and-play system; reduced setup time by **80%**, enabling faster, scalable integration for future apps.
- Developed an AI-powered E-learning app with quizzes and student analytics (project shelved due to company strategy shift).
- Collaborated with DevOps and QA to streamline deployments and manage releases.
- Recognized for high-impact contributions with a 3x salary hike in under a year.

PROJECTS

SUPPORT SYSTEM (SOLO) | PRODUCT CREATOR (INDIE)

A plug-and-play real-time chat support platform for apps, built with React Native, Node.js, Express, Prisma, PostgreSQL.
